

Delicat's Groundhog Day MEME

This is a MEME with a twist, it's an art MEME. That means you have to use drawings or photographs instead of words! Open this image in Paint or Photoshop or print it out if you want.

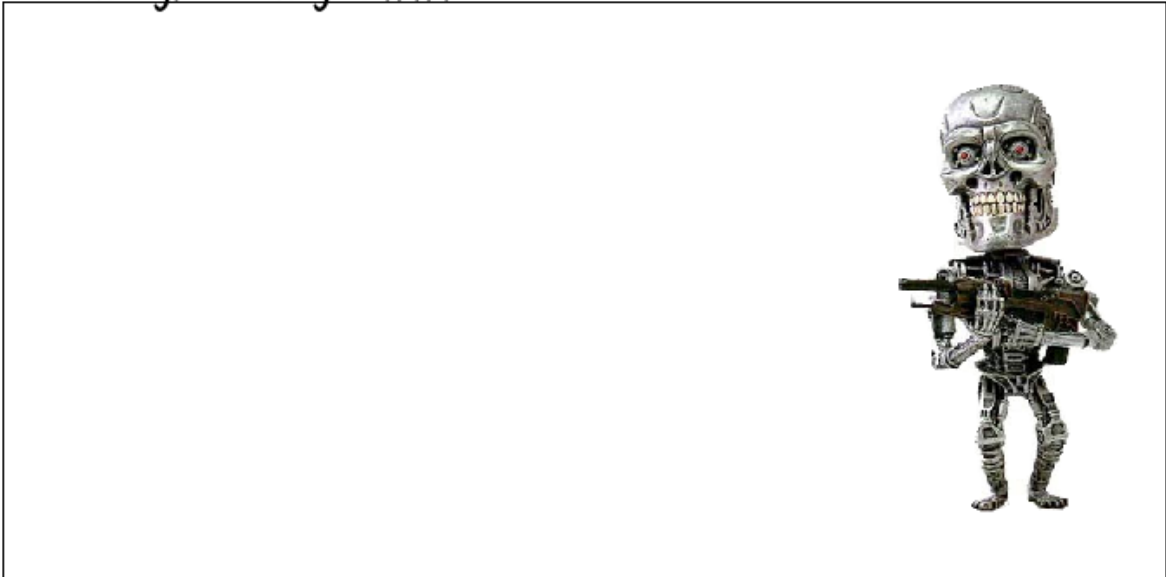

It's groundhog day, so where the heck is the groundhog already?

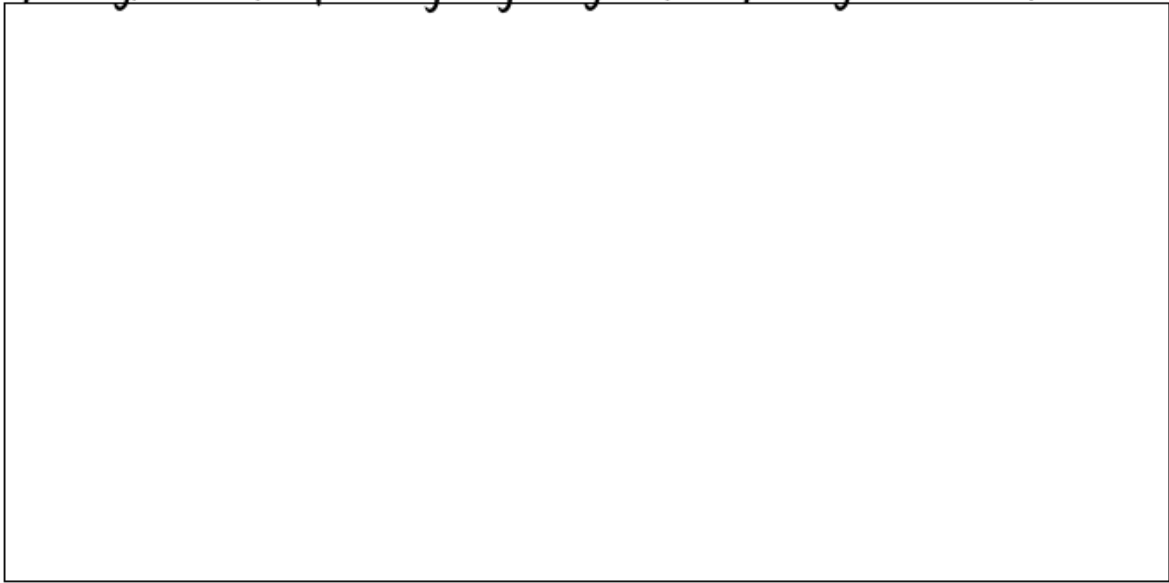

That's it? Really? I was kinda expecting something more. How about you give it a hat?

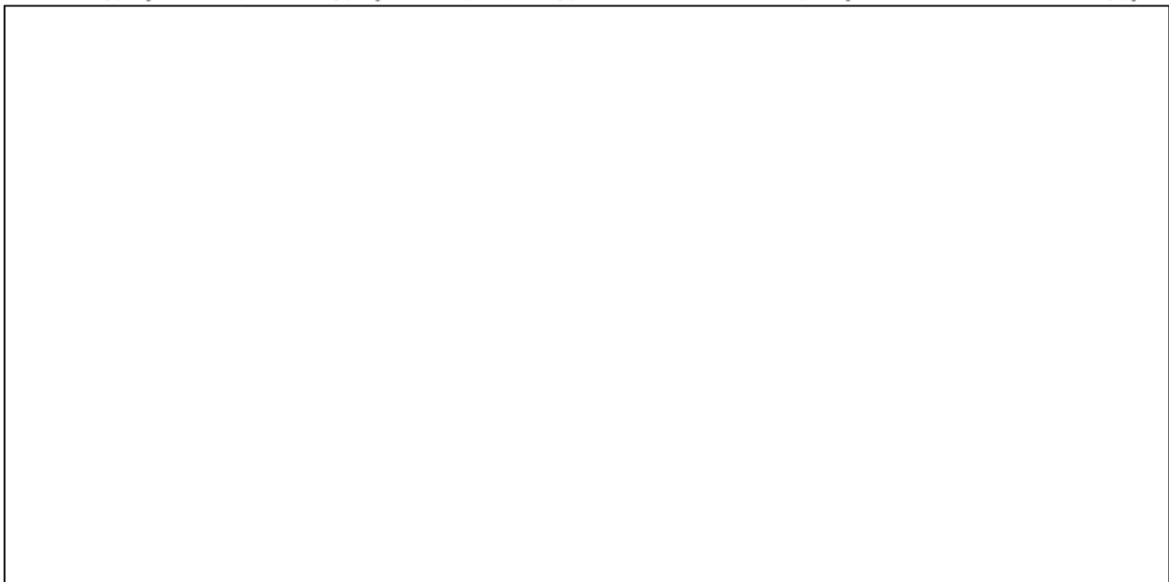

Maybe not. So now down to business! Does the groundhog see... eek! The terminator has come to destroy the groundhog! What will the groundhog do!?!?!?

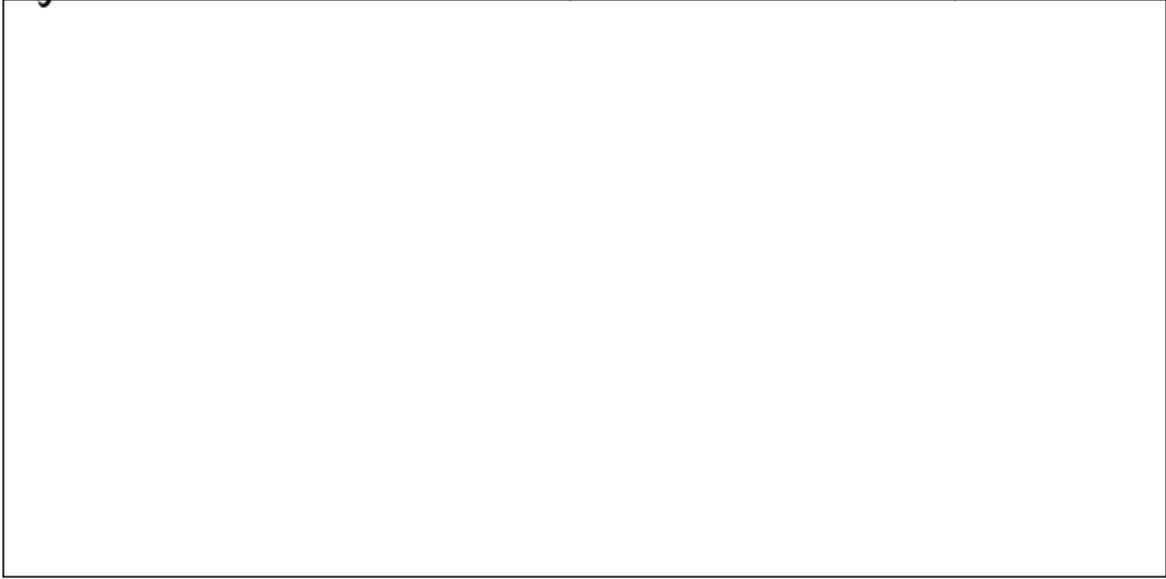

Wow, that was intense! I had no idea groundhog day could be so exciting! Is there possibly anything more exciting than this?

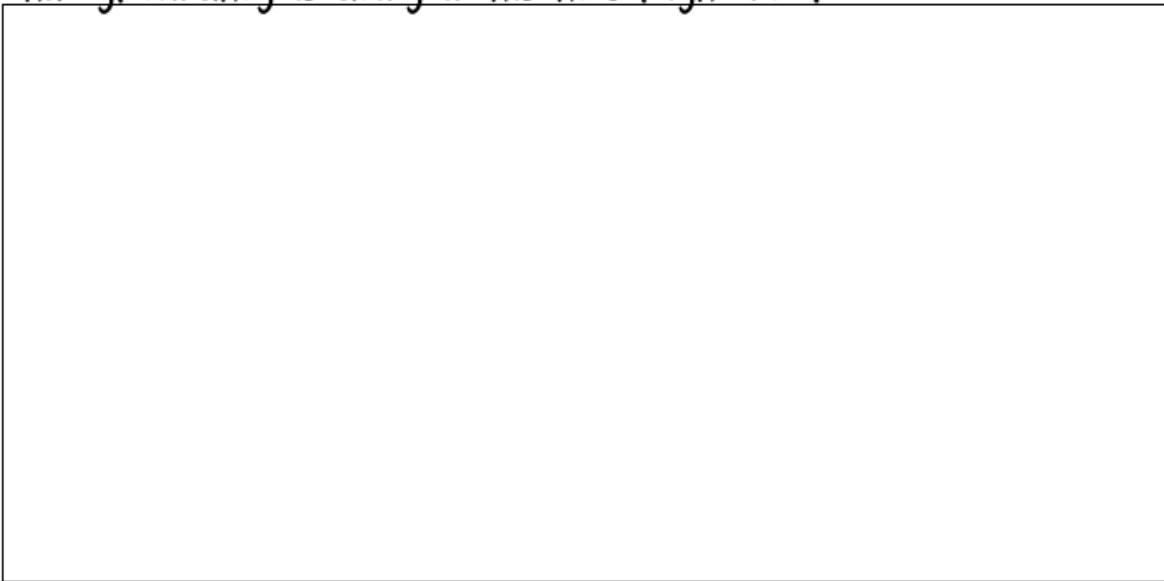

Well, you could be right. Why do we have groundhog day anyway? Isn't there some other animal that would be more fun to watch?

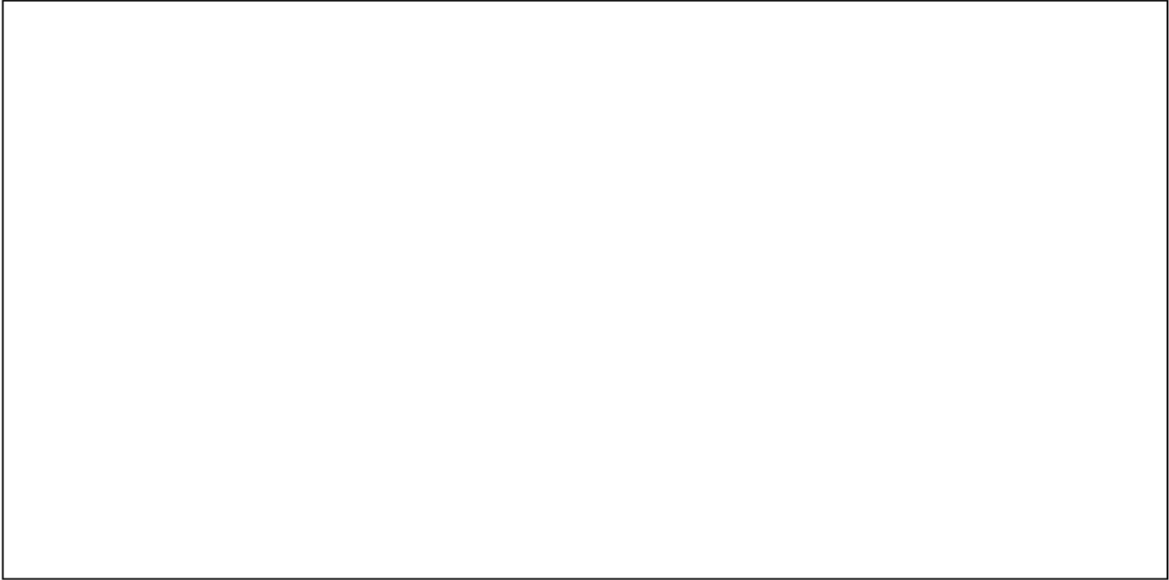

Uhuh. Do you know what they say about opinions? Uhm, nevermind. They also say a picture is worth a thousand words. Really, they say that. Go ahead and make a picture like that (no pressure).

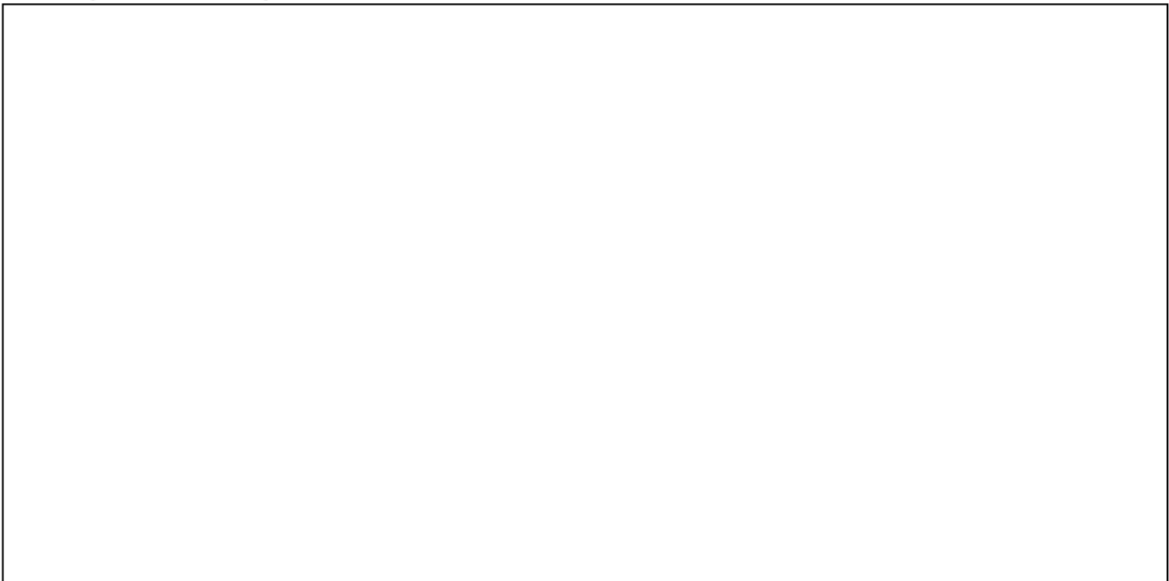

Hah, don't quit your day job! But seriously, what do you think that groundhog is doing in his hole right now?

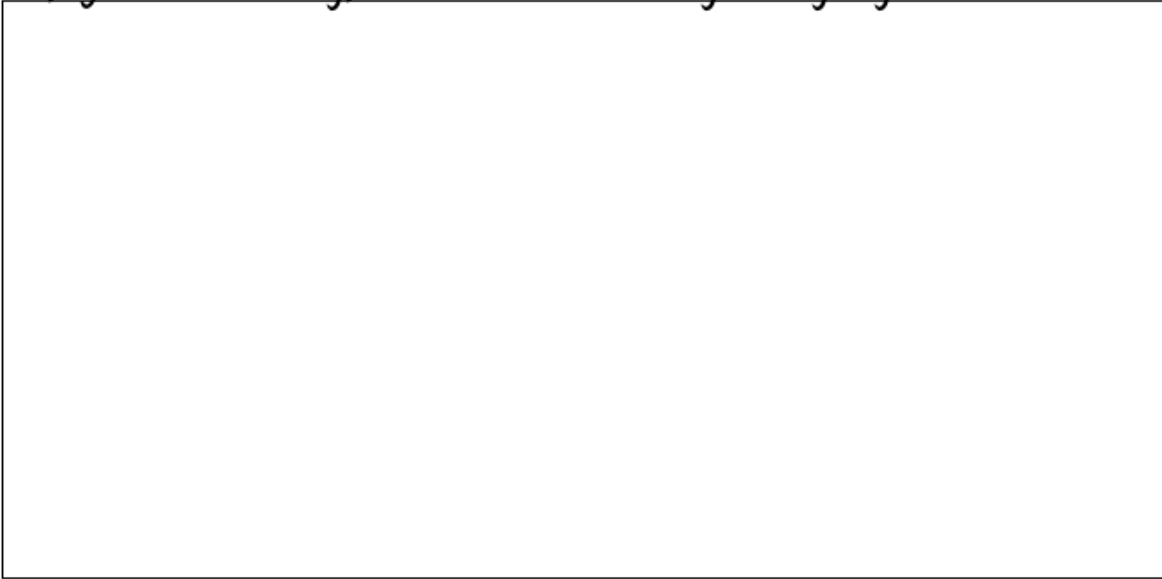

Oh, here he comes! It's the moment of truth! Does the groundhog see his shadow?

Woohoo, it's the outcome we hoped for! What are we going to celebrate with?

Ah, good times! Hey, who the heck are you anyway?

Well it was nice knowing you buddy, now why don't you tag some friends so they can have this much fun too?
